

King Plastic Corporation

11/10/2016

Dear Valued Customer:

King Plastic Corporation's products are inherently free of heavy metals. With this in mind, we certify the products produced to your requirements are compliant with:

RoHS (Restriction of Hazardous Substances)

This is to inform you that the products listed below meet the safety and regulatory requirements for certification to the European Union's RoHS Directive, citation 2011/65/EU. King Plastic Corporation does not intentionally add any lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBB), nor polybrominated diphenyl ethers (PBDE) including pentabromodiphenyl ethers, octabromodiphenyl ethers and decabromodiphenyl ethers (DBDE), during the manufacture of this product. Furthermore, based on the knowledge of the manufacturing process and information provided by our raw material suppliers, we would not expect these substances to be present in our products.

**Materials List**

King StarBoard®, King StarBoard® ST, HDPE, LDPE, each with or without King MicroShield®, ABS and Polypropylene, all color combinations.

Please contact me if you require additional information.

Sincerely,

Bill Birkholz  
Quality Assurance Manager
